TOP TECH MAGAZINES

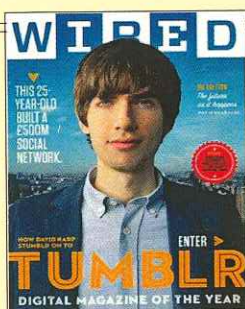

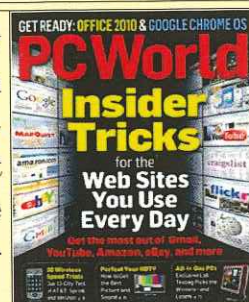

Popular Science as it is better known is an American tech magazine that was founded in 1872 and is one of the leading tech magazines in the world even today. The magazine has often been translated into many different languages all around the world. Its monthly editions provide much needed sci-tech news and reviews for the educated layman which is also highly accessible to the general public. It is a great

CHIP magazine is a monthly Germany based tech magazine that is circulated throughout Europe and Asia. It is one of the leading magazines that cover everything that you need to know on computer hardware, software and peripherals. With an average sale count of well over four hundred thousand copies it is also one of the largest sellers in this genre of magazines. An online version which is also immensely popular has

Computer Power User also known as CPU is one of the most popular tech magazines of today and was started off in the year 2001. It is one of the best magazines for regular science buffs and computer geeks. In a world where magazines have tried to become accessible to every reader, this tech magazine still maintains most of its sections targeted towards the seasoned science buff. A major part of its coverage is based

PC World is more of a computer technology magazine, one can simply not overlook this magazine as one of the best tech based magazines in the world. Besides computers, this tech magazine also looks into the latest gadgets such as cameras, TVs and even mp3 players which are most gadgets that most people use. It was flagged off in 1983 and has since then been at the forefront of technology news, reviews and other arti-

WIRED magazine was started off in 1993 and has since then been one of the premier tech magazines in the world. Besides technology the magazine also covers business, lifestyle and has also ventured into thought leadership. This tech magazine has several international versions although it was started in the United States. Its monthly editions are well worth collecting for the tech enthusiast.

Technology Review was flagged off in 1899 and is a bimonthly magazine. The magazine is owned and published by Massachusetts Institute of Technology and is one of the oldest surviving tech magazines. It has continually established itself as the best tech magazine in the world time and again. The magazine was revived into its past glory in 1996 and has since then been delivering the best of what MIT does and what

Drenched by You

The Variation of the Clouds IN Summer

The Anticipation of everyone

The droplets of life

Falling from big blue blanket

It falls horizontal

Like lines in parallel

Its touch makes me fall magical

I wish I could fly like Tinkerbell

I'm all set

Just to get wet

Its falling on the roof drop by drop

Like plop plop plop.....

How I wish I could cuddle

So much the smell of the soil

When I let my imagination hover

God! Here goes the power

I wonder

At the sound of the thunder

Does it come when clouds crash

Or when skies brash

Look at the flash

Of the lightening

It is so brightening

And like the clouds got a lash

The muddy puddle

Makes me boggle

I wish I could jump

Don't care if I get a bump

Everything seems fresh and lush

Drops from trees splosh

Though you strewn

Wanna see you seen

Math trick (How to multiply a number using 9)

1 2 3 4 5 6 7

9 9 9 9 9 9 9

1 2 3 4 5 6 6 8 7 6 5 4 3 3

STEP 1:

1 2 3 4 5 6

Write all the digits except the last digit.

STEP 2:

1 2 3 4 5 6 7

Write the preceeding number of the last digit

If it is 7; write 6

If it is 9; write 8

STEP 3:

1 2 3 4 5 6

9 9 9 9 9 9

Subtract all digits except the last digit

STEP 4:

1 2 3 4 5 6

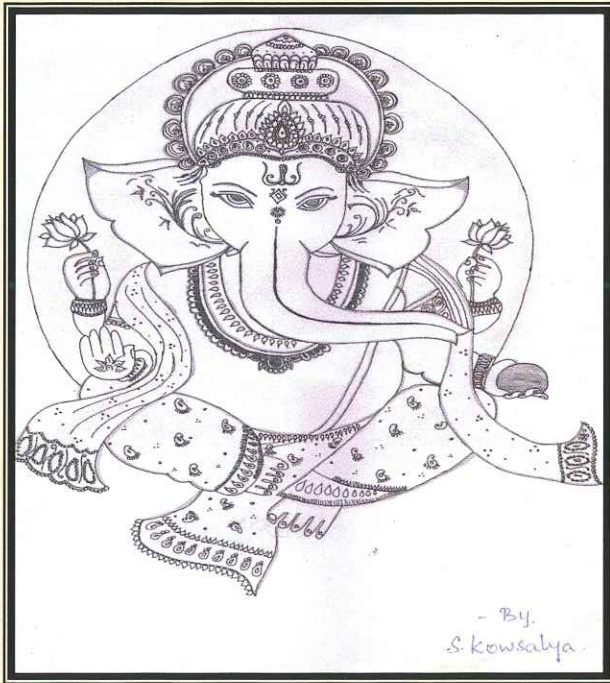

9 9 9 9 9 9

Change the last number as 10 and subtract the number. You will get the answer as

1 2 3 4 5 6 6 8 7 6 5 4 3 3

*Miles to go...
Before we sleep...*

"Take up one idea. Make that one idea your life - think of it, dream of it, live on that idea. Let the brain, muscles, nerves, every part of your body, be full of that idea, and just leave every other idea alone. This is the way to success."

-Swami Vivekananda

"Excellence is a continuous process and not an accident"
