Dr. M. Poongothai, Associate Professor
Dr. Radha Palaniswamy, Assistant Professor
Dr. S. Saranya, Assistant Professor

Executive Members

Students of Biotechnology Department

About the Department

The Department of Biotechnology was established in the year 2002 with the goal of rendering innovative education to the learning aspirers. Department of Biotechnology offers UG, PG, M.Phil and Ph.D programs. We have a team of faculties who contributes much to the development of the potentials of students. Department enhances the knowledge base of students which creates, inculcate the research knowledge among students. The Department is approved and recognized as DBT STAR STATUS since 2022, which also stimulates research interest as a team from under graduate level. With the support of the Management, DST-FIST and DBT STAR College Scheme, we equipped the research labs with modern equipments and infrastructures which kindle research interests among budding Biotechnologists.

About the Conference:

Bioprospecting deals with the identification and characterization of the bioactive compounds derived from the natural sources such as plants, animals and microorganisms for the development of products that are useful to mankind, environment and livestock's. The Conference will be a stepping stone to become a researcher and entrepreneur by commercializing the bioproducts obtained through Bioprospecting. "International Conference on Expedition of Bioprospecting and its Emerging Trends (ICEBET - 2023)" aims to create a meaningful platform for the students, scholars, researchers, scientists and other delegates to excel their research knowledge at global level. The Department of Biotechnology, Dr. N.G.P. Arts and Science College feels proud to invite every budding researchers, entrepreneurs and scientific experts to flourish this conference. In addition, this conference brings the various minds of intelligence and innovations under one roof to enhance the emerging trends and technologies in the field of Bioprospecting.

Theme Areas:

- Biodiversity and its sustainable use
- Marine Bioprospecting and Pharmaceutical Sciences
- Plant and Microbial Bioprospecting
- Nanotechnology and Biosensors
- Food, Nutra and Cosmeceuticals
- Agriculture and Aquaculture
- Drug design, discovery and Development

Note: The themes are not limited.
